

Fitness First

Description:

Fitness First Gym & Health Club started small - as a single health and fitness club in Bournemouth in 1992. Since then we have grown a bit: we're now the largest gym, health and fitness club group in the world with more than 1.4 million Fitness First members in 500 Fitness First Gym & Health Clubs. There's more than 180 Fitness First UK gym and health alone! But we still keep that Fitness First one-health club mentality - every single Fitness First member counts.
